

KCI Airport New Single Terminal & Parking 2B Roadwork | Kansas City, MO

projecthighlights

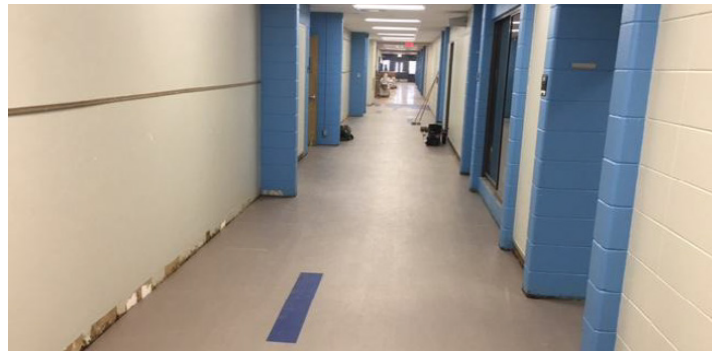

- ▲ cost: \$5.6 million
- ▲ client: Kansas City Aviation Dept.
- ▲ completion date: June, 2020

As part of the Mentor-Protege Program with Kissick Construction, Axiom helped complete a new roadway to the terminal and garage for the Kansas City Aviation Department.

The scope of work included construction of a new segment of roadway connecting in-bound Cookingham Drive traffic with the northern end of International Circle. New roundabouts were constructed at terminal B and C, and the International Circle was re-striped and resigned for the two-way traffic.

Landscaping features were the final phase of the roadway project.

Hickman Mills School District Renovation | Kansas City, MO

projecthighlights

- ▲ Cost: \$19 million
- ▲ Client: Hickman Mills School District Kansas City, MO
- ▲ Completion date: March 2018

Axiom Construction Group was contracted as a CM subconsultant as part of this \$19 million project.

Axiom was responsible for managing the Freshman Center Renovation, which included a very aggressive renovation schedule that was dependent on having kids in school within a non-flexible time frame.

KCI Airport New Single Terminal Foundations | Kansas City, MO

projecthighlights

- ▲ Cost: \$50 million
- ▲ Client: Kansas City Aviation Dept.
- ▲ Completion date: June 2020

The terminal foundations for the new Kansas City airport was an incredibly complex project with heavy structural elements and a demanding schedule. The project required deep foundations, grade beams, piers and pile caps, Axiom was a central figure in this essential part of the new terminal.

Axiom met the challenge while employing nearly 60% of KCMO residents who were also women and minorities. We were able to keep pace with the excavation team and provide the critical foundations in time for the structural steel erection. Our foundation's team completed this vital task six weeks ahead of schedule.

KCI Airport New Single Terminal- Parking Garage Foundations | Kansas City, MO

projecthighlights

- ▲ cost: \$135 million
- ▲ client: Kansas City Aviation Dept.
- ▲ completion date: June 2021

Establishing structural foundation for a parking garage that is nearly one million square feet in size is no small task. Having already successfully completed the complex foundations for the terminal, Axiom was up to the task.

The project consisted essentially of the same structural makeup as the terminal foundations, with Axiom employing the same team that was successful on the terminal foundations.
